

Treatment patterns are patient individual and depend on symptoms of diseases as well as on travel restrictions. Some general examples are outlined below. Your individual treatment patterns will be developed with your treating physician.

Please note that the shelf life of the secretome is 2 years. All 10 infusions have to be administered during this period.

 = Detox may be added in all patterns. This may include detox, vitamins, remineralization, acid/ base equilibrium, anti-hairloss etc. Recommended are e.g. curcumin, neuro/ B and Vagusvit for MS, ALS, PD and ED. Glutathione and amino acids for arthritis, sports/ TOCA for athletes etc. Please enquire about personalised recommendations.
